Acibadem International
Hospital, İstanbul

DEPARTMENT
Otorhinolaryngology (ENT)

CLINICAL FOCUS

Sevtap Kutlay's clinical interests are concentrated on hearing loss, with particular attention to hearing loss in children. Her diagnostic work includes audiometry, which measures how a person responds to sounds at different frequencies and intensities, and BERA (ABR) testing, an electrophysiological method that records the auditory...

Beyond hearing, her expertise extends to speech and language-related concerns. She evaluates speech articulation disorders, in which the production of specific speech sounds is affected, and dyslexia, a learning difficulty that primarily affects reading.
