CLINICAL FOCUS

In gynecology, Dr. Özleme evaluates and treats endometriosis, menstrual irregularities and menopause-related complaints. Her surgical work includes hysterectomy, vaginal laparoscopic surgery and vNOTES scarless surgery, an approach performed through the vagina without abdominal incisions.

In obstetrics, Dr. Özleme follows pregnancies and supports delivery planning. Her areas of expertise include epidural delivery, water birth and cesarean delivery. The mode of delivery is planned according to the course of the pregnancy, the health of the mother and baby, and the mother's preferences, and is reviewed as the pregnancy progresses.
