İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

The clinical work of Dr. Gümüştaş centers on orthopedic oncology surgery and the assessment and treatment of bone tumors. His published work reflects this focus and includes studies on tenosynovial giant cell tumors of the hand and of the foot and ankle, en bloc resection of periosteal chondroma, surgical management of clavicular...

A second area of interest is spinal disorders, supported by his fellowship at the National Center for Spinal Disorders and his membership in AO Spine. The suitability of any surgical or non-surgical approach depends on the individual diagnosis, imaging findings and general health, and is discussed with each patient after a clinical...
