CLINICAL FOCUS

In benign gynecology, Dr. Erciyestepe evaluates and treats endometriosis, pelvic pain and pelvic dysfunction, and urinary incontinence and bladder health. She also sees women for sexual dysfunction treatment, menopause-related symptoms and genital aesthetics. Surgical procedures within her practice include hysterectomy.

In reproductive medicine, she assesses women and couples with infertility and works within the in vitro fertilization and reproductive medicine center. In obstetrics, her practice includes epidural delivery and cesarean delivery.
