SPECIALTY

Otorhinolaryngology

FOCUS

Head & neck cancer surgery

HOSPITAL

Acibadem Altunizade Hospital, İstanbul

DEPARTMENT

Otorhinolaryngology (ENT)

CLINICAL FOCUS

Dr. Jafarov's clinical work covers the evaluation and care of ear, nose and throat conditions. Within the Otorhinolaryngology (ENT) unit, patients are seen for assessment of their symptoms, review of any previous investigations and treatments, and discussion of the options that may be appropriate for their situation.

Otorhinolaryngology is a broad field, and the treatment pathway for each patient depends on the specific condition and its findings. Where a case involves other disciplines, the ENT team works alongside colleagues in the hospital as needed. Separate information on head and neck cancer surgery at the hospital is available on this site for patients whose questions extend into that area.

INTERNATIONAL PATIENTS

Dr. Jafarov consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.

CONDITIONS TREATED

Deviated nasal septum
