Gynecology & Obstetrics

CLINICAL FOCUS

A significant part of Dr. Uysal's practice is urogynecology. She evaluates and treats urinary incontinence and other bladder health concerns, as well as uterine prolapse. Menopause is a further focus: she advises women on the symptoms and health changes associated with this period and discusses the management options that may be appropriate for the individual patient.

Dr. Uysal also treats conditions related to reproductive and sexual health. Her areas of expertise include infertility, polycystic ovary syndrome, menstrual pain, ectopic pregnancy, HPV and sexually transmitted diseases. In obstetrics, epidural childbirth is among the areas listed on her profile, and she also offers consultation on genital aesthetics.

Infertility

Sexually Transmitted Diseases

Menstrual Pain

Urogynecology

Uterine Prolapse

INTERNATIONAL PATIENTS

Dr. Uysal speaks Turkish and English, and interpreters can be arranged for patients who prefer to communicate in another language. For patients coming from abroad, the Acibadem international patient team coordinates the collection of prior reports and imaging, arranges appointments and organizes the hospital visit.
