## CLINICAL FOCUS

Dr. Karaoğlu's practice covers joint, sports and reconstructive orthopedics. He treats osteoarthritis of the hip and knee and performs hip replacement surgery and knee replacement surgery. In sports medicine and sports traumatology, he manages cruciate ligament tears, meniscal tears and other knee and joint injuries.

He also performs foot and ankle surgery, deformity correction surgery and limb lengthening, and he sees children with orthopedic conditions within his pediatric orthopedics practice. The suitability of any surgical or non-surgical option is assessed on an individual basis after clinical examination and review of imaging.

Foot and ankle surgery · Limb lengthening · Cruciate ligament tears · Deformity correction surgery · Osteoarthritis
