CLINICAL FOCUS

Dr. Yavuz evaluates and plans systemic treatment for cancers affecting many different organs and body systems. His areas of expertise include breast cancer, lung and thoracic cancers, colorectal cancer, liver cancer, and kidney cancer. He also sees patients with oral cancer and head and neck cancers, as well as brain tumors.

In addition to solid tumors of the major organs, his practice includes lymphoma, sarcomas, and melanoma and other skin tumors. His listed procedures include isolated liver chemotherapy. Treatment recommendations are made after a review of each patient's diagnosis, disease stage, previous treatments, and overall health, and may involve...
