Gynecology & Obstetrics

CLINICAL FOCUS

A central part of Dr. Kayaoğlu's practice is menopause care. She assesses women experiencing menopause-related symptoms and discusses the available management options in light of each patient's history and overall health. In obstetrics, her work includes pregnancy and birth care, cesarean delivery and epidural birth.

Her surgical expertise includes hysterectomy and vNOTES scarless surgery, an approach performed through the vagina without abdominal incisions. She also offers genital aesthetic procedures and vaginal tightening. Whether a surgical or non-surgical approach is appropriate depends on the individual patient's diagnosis, symptoms and preferences, and this is reviewed carefully during consultation.

Menopause care Bartholin cyst Epidural birth
Genital aesthetic procedures Hysterectomy

INTERNATIONAL PATIENTS

Dr. Kayaoğlu consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, arranges appointments and organises the hospital visit.

CONDITIONS TREATED

Menopause care Bartholin cyst Epidural birth Uterine prolapse
Genital warts
