CLINICAL FOCUS

Dr. Efe's work combines laboratory microbiology with the clinical evaluation of infectious diseases. Her areas of expertise include clinical microbiology, infectious diseases, hospital infection control and viral hepatitis.

Her published and presented work reflects these interests. Topics include the prevalence of asymptomatic bacteriuria in pregnant women, antibiotic susceptibility of Gram-negative bacteria isolated from urine cultures, the frequency of extended-spectrum beta-lactamases in Gram-negative rods, in vitro linezolid susceptibility of...
