Hospital, İstanbul

DEPARTMENT
Neurosurgery

CLINICAL FOCUS

A substantial part of Dr. Muhammedrezai's work concerns degenerative conditions of the spine. He evaluates and treats cervical disc herniation and lumbar disc herniation, as well as cervical spinal stenosis, lumbar spinal stenosis and spinal canal stenosis in general.

He also treats spinal tumors and spinal cord tumors, and manages tethered cord syndrome. In addition, his clinical interests include hydrocephalus, a condition involving the accumulation of cerebrospinal fluid within the brain that may require neurosurgical assessment and, when indicated, treatment.
