DEPARTMENT
Neurosurgery

CLINICAL FOCUS

Dr. Can's cranial practice includes the assessment and surgical treatment of brain tumors, including meningioma, a tumor that arises from the membranes covering the brain and spinal cord, and brain tumors in children.

Her spinal practice covers lumbar and cervical disc herniation, lumbar spinal canal stenosis and cervical spinal canal stenosis, as well as spinal tumors and spinal cord tumors. For degenerative spinal conditions, surgery is generally considered when symptoms persist despite other measures or when neurological findings suggest that intervention is needed.

Lumbar and cervical disc herniation

Brain tumors

Pediatric brain tumors

Tethered cord syndrome

Hydrocephalus

INTERNATIONAL PATIENTS

Dr. Can consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI and CT reports, laboratory and pathology results, operative notes and discharge summaries, and...
