Emergency Service

CLINICAL FOCUS

Dr. Esin's practice is devoted to emergency care. Patients who arrive at the Emergency Service may have sudden symptoms, injuries or a worsening of an existing illness, and the first priority is a structured acute patient assessment.

Once the initial assessment has been completed, Dr. Esin is responsible for urgent medical management. Depending on the findings, this may include stabilizing the patient, starting treatment for the immediate problem, arranging further diagnostic work-up or involving colleagues from other specialties within the hospital.

Urgent medical management

INTERNATIONAL PATIENTS

Dr. Esin speaks Turkish and English, and interpreters can be arranged for patients who prefer to communicate in another language. For patients coming from abroad, the international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results,...
