Acibadem Eskisehir Hospital

DEPARTMENT
Medical Oncology Department

CLINICAL FOCUS

Dr. Şahin's areas of expertise cover several of the more commonly diagnosed solid tumors. In the field of women's cancers, he sees patients with ovarian cancer, breast cancer and cervical cancer. His practice also includes lung and thoracic cancers as well as bone tumors.

Within gastrointestinal oncology, Dr. Şahin manages patients with stomach cancer, pancreatic cancer and colorectal cancer. He also treats thyroid cancer and prostate cancer. Across all of these tumor types, his work involves reviewing pathology, imaging and staging information, discussing the available treatment options with the patient and coordinating care within the Medical Oncology Department.

Ovarian cancer

Breast cancer

Lung and thoracic cancers

Bone tumors

Stomach cancer

INTERNATIONAL PATIENTS

Dr. Şahin consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, arranges appointments and organizes the hospital visit.
