Gynecology & Obstetrics

CLINICAL FOCUS

In gynecology, Dr. Menteş evaluates and treats menstrual irregularities, sexually transmitted diseases and HPV, and provides care for women going through menopause. A significant part of her work concerns pelvic pain treatment and urinary incontinence and bladder health, conditions that can affect daily life and that are typically...

In obstetrics, she performs detailed ultrasound examinations during pregnancy and carries out cesarean deliveries. Pregnant patients are followed through routine antenatal visits, with imaging used to monitor the development of the baby and to inform decisions about delivery.
