DEPARTMENT
Medical Oncology Department

CLINICAL FOCUS

Dr. Korkmaz provides medical oncology evaluation and care planning for adults with a range of solid tumors. A large part of his practice involves tumors of the head and neck region, including oral cancer, tongue and base of tongue cancer, nasal tumors and other head and neck cancers.

His other areas of expertise include lung and thoracic cancers, anal cancer, malignant melanoma and other skin tumors. In each case, the medical oncology assessment is based on the patient's diagnosis, previous treatments and current imaging, and the options are discussed with the patient before any treatment plan is proposed.
