CLINICAL FOCUS

Dr. Erol evaluates and manages a range of cardiovascular conditions. His areas of expertise include coronary artery disease and heart valve diseases such as aortic stenosis, mitral regurgitation and rheumatic heart disease, as well as atrial septal defect. He also sees patients with arrhythmias, including atrial fibrillation, and patients who may need a pacemaker.

His clinical interests also cover diagnostic and interventional cardiology, including angiography, percutaneous coronary intervention, chronic total occlusion procedures and transcatheter aortic valve implantation (TAVI). Whether a patient is a candidate for any of these procedures is assessed on an individual basis after a review of the history, examination findings and imaging. In addition, Dr.

INTERNATIONAL PATIENTS

Dr. Erol speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ultrasound reports including echocardiography, CT or MRI reports, X-ray reports, laboratory results, operative notes and discharge summaries, and arranges...
