CLINICAL FOCUS

The areas of expertise listed for Dr. Çetin are intensive care treatment, advanced life support and palliative care. Intensive care treatment concerns patients whose condition requires close, continuous monitoring and support of vital functions, often after major surgery, serious illness or injury.

Dr. Çetin's background in anesthesiology and reanimation spans hospital intensive care units, surgical centers and specialist clinics, and his work has included supervising an intensive care unit as well as providing anesthesia for patients undergoing surgery in several settings.

Advanced Life Support Palliative Care Intensive Care Treatment

INTERNATIONAL PATIENTS

Dr. Çetin consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
