CLINICAL FOCUS

A central part of Dr. Ergin's practice is the care of women with high-risk pregnancies. This includes routine and complex pregnancy follow-up, detailed ultrasound during pregnancy, and the assessment and management of pregnancy-related conditions such as gestational diabetes and preeclampsia.

In obstetric care, Dr. Ergin accompanies women through delivery, including epidural delivery, cesarean delivery, and water birth, with the approach discussed on the basis of each patient's situation. His gynecological work includes HPV, Bartholin cyst, and hysterectomy.
