CLINICAL FOCUS

Dr. Akbaş's areas of expertise include interventional radiology and a broad range of diagnostic imaging. She works with computed tomography (CT), magnetic resonance imaging (MRI) and ultrasound imaging, and her practice also includes CT colonography, virtual colonoscopy and virtual angiography.

Breast imaging is a further part of her work. She performs and interprets mammography and is involved in the imaging assessment of breast diseases. Where an image-guided procedure is indicated, interventional radiology may be considered as part of the diagnostic or treatment pathway.
