CLINICAL FOCUS

A large part of Dr. Baykara's work relates to menstrual and reproductive health. She assesses and treats menstrual irregularities and polycystic ovary syndrome, a hormonal condition that can affect cycle regularity and fertility. Women and couples with fertility concerns can consult her for evaluation and a discussion of possible diagnostic and treatment steps, including assisted reproductive care offered through the Vitro...

Her surgical and procedural practice includes hysterectomy, which may be considered for certain gynecological conditions after other options have been reviewed. She also offers genital aesthetics and vaginal tightening procedures. As with any treatment, the suitability of a specific procedure depends on the individual patient's history, examination findings and personal goals, and Dr.

Preeclampsia

Gestational diabetes

Genital aesthetics

INTERNATIONAL PATIENTS

Dr. Baykara consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example ultrasound or MRI reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
