HOSPITAL
Acibadem Maslak Hospital,
İstanbul

DEPARTMENT
Neurosurgery

CLINICAL FOCUS

Dr. Yayla's work concentrates on degenerative and structural conditions of the spine. She assesses and treats patients with cervical disc herniation and lumbar disc herniation, cervical spinal stenosis and lumbar hypolordosis, as well as tethered cord syndrome and injuries of the spine and spinal cord.

Where surgery is considered, her practice covers spine surgery for disc herniation and spinal stenosis, and spinal fusion surgery in selected cases where stabilization of the spine is required.

Cervical disc herniation
