DEPARTMENT
Anesthesiology &
Reanimation

CLINICAL FOCUS

Anesthesiology and reanimation covers both the anesthetic care of patients undergoing procedures and the treatment of patients whose condition requires close monitoring and organ support. Within this field, Dr. Demirbey's areas of expertise are intensive care treatment, palliative care, and advanced life support.

Palliative care focuses on relieving symptoms and supporting comfort for patients living with serious illness, with attention to the needs of the patient and family. Advanced life support refers to the structured measures used to stabilize patients in life-threatening situations.

INTERNATIONAL PATIENTS

Dr. Demirbey speaks Turkish and English, and interpreters can be arranged for patients who communicate in other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
