CLINICAL FOCUS

Dr. Durakoğlugil's areas of expertise center on the care of critically ill and acutely unwell patients. These include intensive care treatment, advanced life support, trauma care, toxicology and emergency interventions.

His listed areas also include palliative care and pain management. Palliative care focuses on relieving symptoms and supporting comfort for patients with serious illness. Pain management addresses the assessment and treatment of pain as part of overall care; general information on interventional pain management is available on this site.
