## CLINICAL FOCUS

Dr. Özdemir's clinical work covers a range of surgical conditions seen in infants and children. In the digestive system, his areas of expertise include infantile pyloric stenosis, appendicitis in children and other forms of pediatric digestive system surgery, consistent with his subspecialty in Digestive System Diseases and Surgery.

In pediatric urology, his expertise includes hypospadias and undescended testicle, as well as circumcision. The most appropriate approach for each child depends on age, the specific findings and the results of the clinical examination, so treatment is decided on an individual basis after assessment.

Infantile pyloric stenosis

Appendicitis in children

Pediatric hernia

Hydrocele

Spermatic cord cyst

## CONDITIONS TREATED

Infantile pyloric stenosis

Appendicitis in children
