Hospital, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Cingöz assesses and treats a range of musculoskeletal injuries and joint conditions. His work in sports and knee injuries covers anterior cruciate ligament tears, meniscus tears and muscle tear treatment. He also provides trauma care and performs foot and ankle surgery as well as shoulder and elbow surgery.

For degenerative joint disease, he evaluates patients with osteoarthritis and, where appropriate, performs knee replacement surgery and hip replacement surgery. Robotic surgery is among his areas of expertise.
