Breast conditions · Buccal
fat removal

HOSPITAL

Acibadem Atasehir
Hospital, İstanbul

DEPARTMENT

Plastic, Reconstructive &
Aesthetic Surgery

CLINICAL FOCUS

A substantial part of Dr. Kuybulu's practice is devoted to breast conditions and breast surgery. This includes breast reduction surgery for patients seeking relief from the physical or aesthetic effects of large breasts, and breast augmentation surgery for patients who wish to change breast volume or shape.

In facial surgery, Dr. Kuybulu performs rhinoplasty, surgical facelift, and buccal fat removal. His reconstructive work includes chronic wound care, in which wounds that have not healed as expected are evaluated and managed using reconstructive surgery techniques where appropriate.

Breast conditions

Buccal fat removal

Mommy makeover

Surgical facelift

Rhinoplasty

INTERNATIONAL PATIENTS

Dr. Kuybulu consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, including MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
