CLINICAL FOCUS

Dr. Altıparmak assesses and manages a range of medical eye conditions. These include glaucoma, macular degeneration, uveitis and keratoconus, as well as astigmatism, blepharitis and eye allergy.

Care is planned on an individual basis after examination and review of the patient's history, and the suitability of any given approach depends on the findings in each case.

Wilson disease Astigmatism Blepharitis Eye allergy

Eye migraine

CONDITIONS TREATED

Wilson disease Astigmatism Blepharitis Eye allergy
