Hospital, İstanbul

DEPARTMENT
Otorhinolaryngology (ENT)

CLINICAL FOCUS

A significant part of Dr. Çınar's practice concerns the ear and its related functions. He evaluates and treats patients with tinnitus and hearing loss, and performs inner ear surgery where it is indicated.

His throat and airway work includes the assessment of snoring, adenoids, pharyngitis and hoarseness. Surgical procedures within his expertise include tonsil surgery, for adults and children in whom the indication has been established.
