CLINICAL FOCUS

Dr. Noyan's clinical work centres on the health of the gums and the tissues that support the teeth and dental implants. She sees patients with periodontal disease, gum bleeding, gum abscess and gum recession, as well as those with bad breath or oral sores.

Procedures within her practice include dental scaling, laser gum treatment and gum aesthetics. For patients concerned about excessive gum display when smiling, she offers gummy smile Botox treatment.

Peri-implantitis treatment

Laser gum treatment
