SPECIALTY

Emergency Service

FOCUS

Chest pain evaluation ·  
Acute abdominal pain

HOSPITAL

Acibadem Ankara Hospital

DEPARTMENT

Emergency Service

## CLINICAL FOCUS

Dr. Özcan's areas of expertise include chest pain evaluation, acute abdominal pain and respiratory distress management. In these presentations, the emphasis is on structured history-taking, physical examination and timely use of diagnostic tests to distinguish conditions that require immediate intervention from those that can be managed with observation or outpatient follow-up.

His practice further covers trauma assessment, fracture and dislocation care and wound care and suturing, including the initial stabilization and treatment of injuries seen in the emergency setting. Dr. Özcan also manages allergic reactions and anaphylaxis and performs cardiopulmonary resuscitation when patients present with life-threatening deterioration.

Chest pain evaluation

Acute abdominal pain

Trauma assessment

Fracture and dislocation care

Wound care and suturing

## INTERNATIONAL PATIENTS

For international patients, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries. The team also arranges appointments and organizes the hospital visit.

## CONDITIONS TREATED

Chest pain evaluation
