HOSPITAL

Acibadem Atasehir
Hospital, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Akgün's practice centers on injuries and disorders of the shoulder, elbow, knee, foot and ankle. In the knee, he assesses and treats cruciate ligament tears, meniscus tears and other joint injuries, drawing on a background in sports medicine and sports traumatology.

Foot and ankle surgery forms a second subspecialty area. In trauma care, Dr. Akgün performs minimally invasive trauma surgery where appropriate. The choice between non-operative and surgical treatment, and the specific technique used, is decided on an individual basis after clinical examination and review of imaging.

Shoulder and elbow surgery

Sports medicine and sports traumatology

Knee and joint injuries

Foot and ankle surgery
