Physical Medicine & Rehabilitation

CLINICAL FOCUS

The areas of expertise listed for Umut Şahin are pediatric rehabilitation, child rehabilitation support, functional rehabilitation, and physical medicine and rehabilitation. Pediatric rehabilitation concerns the physiotherapy-based assessment and support of children whose movement, posture or day-to-day function is affected by a medical condition.

Functional rehabilitation focuses on the practical abilities that matter in everyday life, such as mobility, balance and independence in routine activities. Within physical medicine and rehabilitation, the approach generally starts with a careful evaluation of the patient's current function and history, followed by a rehabilitation plan that is reviewed over time.
