CLINICAL FOCUS

Dr. Şenol's areas of expertise are cardiology, cardiovascular care and cardiopulmonary rehabilitation, with cardiopulmonary rehabilitation listed as his subspecialty. Cardiopulmonary rehabilitation is a structured, supervised approach to supporting patients with heart and lung conditions, and it is generally considered alongside medical...

He has co-authored a number of publications in cardiology journals. These include articles in TKD Archives on high-dose versus low-dose bolus tirofiban in acute coronary syndrome patients undergoing coronary intervention, and on the use of low molecular weight heparins in pregnant women with mechanical prosthetic heart valves.
