Pulmonology

CLINICAL FOCUS

Dr. Cenk's practice covers a range of respiratory conditions. He evaluates and treats pneumonia and other lower respiratory tract infections, asthma, and chronic obstructive pulmonary disease (COPD), which are common reasons for referral to a pulmonologist. He also assesses patients with suspected or confirmed pulmonary embolism.

A further part of his work relates to sleep and lifestyle. Dr. Cenk performs polysomnography, a sleep study used in the investigation of sleep-related disorders. Within the Smoke-Free Life subspecialty, he provides smoking cessation support for patients who wish to stop smoking, an approach that is relevant to the prevention and...
