CLINICAL FOCUS

A significant part of Dr. Şengöz's work involves the assessment and management of inflammatory and infectious skin conditions. She provides acne treatment, which typically begins with an evaluation of the type and severity of the lesions before a treatment plan is discussed with the patient.

In cosmetic dermatology, Dr. Şengöz offers applications directed at skin rejuvenation and regeneration. These include Dermapen, PRP applications, glycolic acid treatments, hyaluronic acid treatments and collagen treatments.

INTERNATIONAL PATIENTS

Dr. Şengöz consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and relevant records, such as previous dermatology reports, laboratory or pathology results, photographs of the affected...
