HOSPITAL
Acibadem Adana Hospital

DEPARTMENT
Gynecology & Obstetrics

CLINICAL FOCUS

Dr. Noyan evaluates and treats a range of gynecologic conditions, including menstrual irregularities, premenstrual syndrome (PMS), menstrual pain, painful intercourse (dyspareunia), Bartholin cyst, sexual function disorders and sexually transmitted infections.

Reproductive medicine is a central part of his work. He sees patients for the assessment and treatment of infertility, drawing on his experience in assisted reproductive treatment centers and in vitro fertilization.
