Summer foot care

HOSPITAL
Acibadem Dr. Sinasi Can
(Kadikoy) Hospital, ...

DEPARTMENT
Podiatry & Foot Health

CLINICAL FOCUS

Her listed areas of expertise include medical foot care, corn care, thickened nail care, deformed nail care and cracked heel care. These services address common and often uncomfortable problems of the feet: corns that form in areas of pressure or friction, nails that have thickened or grown in an irregular shape, and dry, fissured skin on the heels.

Yaren Kavlak also provides pregnancy foot care and summer foot care. During pregnancy, changes in weight, posture and circulation can place additional strain on the feet, and appropriate care may help maintain comfort and skin and nail health during this period. Summer foot care concerns the effects of heat, open footwear and increased activity on the skin and nails.

INTERNATIONAL PATIENTS

Yaren Kavlak speaks Turkish and English, and interpreters can be arranged for patients who need support in other languages. For patients coming from abroad, the Acibadem international patient team coordinates the collection of prior reports and any relevant imaging, arranges appointments and organises the hospital visit.
