### CLINICAL FOCUS

Dr. Ersoy evaluates and treats adults with infectious conditions, combining clinical assessment with laboratory-based diagnostics. Her areas of expertise include lower respiratory tract infections such as bronchitis and pneumonia, as well as communicable diseases more broadly.

A further part of her practice is preventive care, in particular adult vaccination, together with the assessment and management of shingles. Where appropriate, microbiological and laboratory testing is used to help identify the pathogen and to inform treatment decisions, and follow-up may include repeat laboratory monitoring depending on...
