CLINICAL FOCUS

Thyroid disorders are a central part of Dr. Uzun's work, in keeping with his subspecialty in thyroid diseases and treatment. He also evaluates and treats patients with type 1 and type 2 diabetes, including type 1 diabetes treatment, and manages diabetes insipidus, a distinct condition affecting fluid balance.

In addition, Dr. Uzun sees patients with anemia and edema, both of which may point to an underlying condition that requires careful internal medicine assessment. His areas of expertise also include pancreatic diseases, liver diseases and biliary tract diseases. The approach in each case depends on the individual patient's history, examination findings and test results.

INTERNATIONAL PATIENTS

Dr. Uzun consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as laboratory and pathology results, ultrasound, CT or MRI reports, operative notes and discharge summaries, and arranges appointments and the hospital...
