CLINICAL FOCUS

Dr. Güngörmüş provides ophthalmology consultations and care for patients with eye conditions. A consultation with him generally begins with a review of the patient's history and current symptoms, including any prior eye examinations, treatments or surgical notes the patient can provide.

Because eye conditions vary widely in their presentation and course, Dr. Güngörmüş bases his recommendations on the individual findings of each examination rather than on a fixed pathway. Where earlier reports or measurements are available, he takes these into account so that changes over time can be considered as part of the overall assessment.

INTERNATIONAL PATIENTS

Dr. Güngörmüş consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ophthalmic examination reports, imaging studies, laboratory and pathology results, operative notes and discharge summaries, and arranges...
