DEPARTMENT
Medical Oncology Department

CLINICAL FOCUS

Dr. Karakaş sees patients with lung cancer and other thoracic cancers. His work in this area involves reviewing the diagnosis, staging information and previous treatments, and discussing systemic treatment planning and ongoing care with the patient.

A further area of his practice is breast cancer, a subject on which he has also published, including research on multifocal and multicentric disease and adjuvant hormone therapy. Across these conditions, his role as a medical oncologist is to assess the individual case, explain the options that may be appropriate, and follow the patient...
