DEPARTMENT
Anesthesiology &
Reanimation

CLINICAL FOCUS

Anesthesiology covers the whole period around an operation rather than a single step. Dr. Ljama's clinical focus is perioperative anesthesia care: assessing patients before surgery, planning and delivering anesthesia in the operating room, and supporting the early recovery phase afterward.

Tailored anesthesia planning means that the anesthetic approach is not identical for every patient. Age, existing medical conditions, current medications, previous experiences with anesthesia and the nature of the planned operation are taken into account when the plan is prepared and discussed.

Perioperative pain management

INTERNATIONAL PATIENTS

Dr. Ljama speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. For international patients, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
