CLINICAL FOCUS

A central part of Dr. Güven's practice is the assessment and management of chronic pain and musculoskeletal pain, including myofascial pain syndrome, fibromyalgia syndrome and chronic mechanical low back pain.

Bone health is another area of her work: she evaluates and manages osteoporosis and osteopenia, conditions on which she has also published. In the rehabilitation field, Dr. Güven works with patients after joint replacement (post-arthroplasty rehabilitation) and after shoulder surgery, in particular rehabilitation following anterior...
