DEPARTMENT
Dental & Oral Health

CLINICAL FOCUS

Dr. Kavi's clinical work centers on general dentistry. In this role she assesses the condition of the teeth, gums and other oral tissues, reviews the patient's dental history and any previous dental treatment, and explains what she finds in plain terms.

Preventive dental care is a further focus. Preventive care is generally directed at maintaining oral health over time and at identifying early changes before they progress, and it is discussed with each patient in the light of their individual situation. Dental treatment planning ties these elements together. When several issues are present, or when care is expected to take place in stages, Dr.

INTERNATIONAL PATIENTS

Dr. Kavi consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as dental X-ray reports, records of previous dental treatment and any relevant laboratory results, and arranges appointments and the hospital visit itself.
